Greg,

On behalf of the NPDES Permits Program at EPA Region 10, I am transmitting the coverage letters under the Chukchi Exploration NPDES General Permit for Shell for the four Burger lease locations in the Chukchi Sea. Attached are two letters, one providing permit authorization to discharge from the Noble Discoverer, and the other providing authorization for the Polar Pioneer.

EPA will post the letters on the Region 10 website and will send an email notice to our listserv within the next day or two. Please do not hesitate to contact me if you have any questions or concerns.
